Meet Hugh!

We're delighted to introduce Hugh Conway to you as part of the Gaia Education team as a Computing, Maths and Science educator.

Computing, Maths & Science Educator

Hugh joined Gaia Learning in 2026, bringing over a decade of experience in teaching, middle leadership and alternative provision. He has worked across grammar, independent and comprehensive schools, as well as supporting disadvantaged children unable to access mainstream schooling.

Hugh believes learning is not a race. He is passionate about creating calm, personalised spaces through one-to-one and small-group learning, where children feel safe, understood and supported. Giving learners room to grow at their own pace helps rebuild confidence, rekindle curiosity and prepare them for wider life or a return to mainstream education when the time is right.

Before teaching, Hugh managed IT and operations projects at Lloyds Banking Group. He combines this real-world technology experience with a background in Physics and Science leadership, including serving as Deputy Head of Science, to make Computing, Maths and Science practical and engaging.

Hugh also holds a BMus (Hons) in Music from Royal Holloway, University of London. This creative background shapes his STEAM approach, bringing together Science, Technology, Engineering, Arts and Maths. He enjoys breaking down complex ideas and tailoring lessons to each learner's strengths and interests.
