Meet Kiran!

We're delighted to introduce Kiran to you as part of the Gaia Education team as a Mathematics Educator.

Mathematics Educator

Kiran joined the Gaia Education team in October '26 as a Mathematics Educator, bringing a wealth of teaching experience, curriculum expertise and a passion for making learning accessible, engaging and enjoyable for every student.

With experience teaching Mathematics across Key Stages 3, 4 and 5, Kiran has worked with learners of varying abilities, backgrounds and educational needs. During her teaching career, she has also held the position of KS4 Coordinator, overseeing GCSE curriculum planning, developing educational resources, monitoring student progress and supporting learners in achieving their potential.

Kiran is particularly passionate about creating a positive and inclusive learning environment where students feel comfortable, confident and supported. She recognises that every learner is different and enjoys adapting her teaching approach to suit individual interests, abilities and learning styles.

Since joining Gaia, Kiran has enjoyed the opportunity to take a more personalised and creative approach to education. From interactive Mathematics lessons to exploring wider STEM subjects, she aims to make learning meaningful, engaging and, most importantly, enjoyable.

Outside of teaching, Kiran enjoys spending time with her husband and young daughter, reading fantasy novels and looking after her two Ragdoll kittens!
