Meet Lisa!

We're delighted to introduce Lisa to you as part of the Gaia Education team as an educator and interest-based educator.

Primary Educator
Interest-based Educator

Lisa has over 15 years of experience in primary and special educational needs and disabilities (SEND) school settings, working with learners from Early Years through to Key Stage 5. She believes every child should feel that they can succeed and that learning should be a positive experience.

Lisa aims to create a calm, supportive and pressure-free learning environment where children can build confidence, develop curiosity and enjoy learning.

Getting to know each child as an individual is central to Lisa's approach. She takes time to understand their strengths and uses their own interests to support them with the things they find more challenging.

Outside work, Lisa enjoys spending time with her husband and two older children. They love holidays, exploring new places and finding lovely cafés and places to eat. She also enjoys cycling and walks with her dog, Ozzie, who is always happy to pop in and say hello during Gaia sessions!
